

# DENTAL COVERAGE

You may go to any licensed dentist but you could increase your benefits and lower your out-of-pocket cost by up to 40% by going to a Dental Network of America dentist. Simply notify the dentist that you have Blue Cross Blue Shield dental coverage and in most cases, they will submit all claims and only bill you for any balances due.

Dental Network of America is the national, dental Preferred Provider Organization (PPO) network for Blue Cross Blue Shield of Michigan with over 110,000 dentists in the national network. This means that you can visit any participating dentist on the list of Dental Network of America dentists and save on your dental costs. Dental Network of America is a group of quality dentists who have agreed to accept a set, discounted fee schedule for Dental Network of America members.

Members can receive an additional discount for non-covered benefits (including orthodontia) or for covered benefits after the annual maximum has been met. When members seek services from a Dental Network of America PPO provider, the provider will charge a reduced fee using pre-negotiated discounts. The member will pay the provider directly. **Orthodontic services from a Dental Network of America provider will only be charged the Dental Network of America fee, not the provider's full charge.**

## Dental Benefit Summary
